SUMMARY

Experienced React frontend developer with over 2 years of hands-on experience creating dynamic and responsive user interfaces. Proficient in building modular components, managing state using Redux, and optimizing applications for peak performance. Collaborative team player with a track record of delivering high-quality projects on time. Skilled in React js, JavaScript, CSS, HTML and Git. Strong problem-solving skills and ability to work effectively in a team-based environment.

SKILLS

- Web Technologies :**
 - React .JS, Javascript, HTML, CSS, Bootstrap, JQuery
- UI development :**
 - HTML, CSS , Bootstrap, Material UI
 - Testing and Debugging
- Backend Languages :**
 - Node js, SQL
- Database :** SQL
 - Data science
- Languages :** C, Python

WORK EXPERIENCE

Value Innovation Labs

React Frontend Developer • 2022 - Present

- Creating reusable and modular UI components using React.js.
- I utilize state management libraries like Redux or context API to manage the application's state in a predictable and centralized manner. This ensures that data is shared and updated seamlessly across different components.
- I connect the frontend with backend services by making API calls using tools like the fetch API or libraries like Axios. This enables the application to retrieve and update data from databases or external APIs.
- I implement client-side routing using libraries like React Router. This allows for the creation of single-page applications where different components are displayed based on the URL, enhancing the user experience by eliminating page reloads. As a React developer, bug solving is an integral part of my role.
- Modified company web applications and processes to increase productivity.
- Modified existing software systems to enhance performance and add new features.
- Troubleshoot and resolve software defects and issues

IT GENIE GROUP

UI Developer • Apr 2021–Feb 2022

- Worked with technical leads, engineers and designers to develop dynamic client-side web applications across various areas of business.
- Developed custom web application interfaces with HTML and CSS to meet client requirements.

EDUCATION

B.Tech (Electronics And Communication Engineering)

Kashi Institute of Technology • 2013–2017

12th

Jatadhari Janta Inter College • 2013

CERTIFICATIONS

IBM Data Science Professional Certificate

Coursera

C Programming Basics: Flow Control, Variables, and Pointers

LinkedIn

ADDITIONAL INFORMATION

- **Projects :**
<https://hrms.rozgar.com/>
<https://www.rozar.com/>
- **Project 1 > HR Management System :**
- This project is built on Node.js and React Js and used to maintain employee records with their payroll process and attendance system this system also provides a fully configurable expense and reimbursement System for their company and employee.
